Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 October 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

Applicant's election of Invention I (Claims 1-9 and 16-32) in the reply filed on 10/4/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Comments

Applicant is advised that should claims 16 and/or 25 be found allowable, claims 20 and/or 29 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). The difference of a "cleaning vehicle" or "cleaning solution vehicle" or "vehicle" does not provide structural differences and therefore the claims are substantially the same.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless – (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 8, 16, 17, 19-23, 25-27, 29 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Sales (US Patent No. 5,469,598).

Sales discloses a cleaning vehicle (Fig. 1, Item 15), engine (Fig. 2, Item 6), cleaning fluid storage (67), delivery system (116, 11), and effluent storage system (125). Sales also discloses a mixing chamber where the chemical line (66) mixes with the water line (47). Sales further shows a heating system (see Fig. 2, Item 46), a cleaning applicator (11), vacuum system (120) and air compressor system (88). Sales also discloses the flow rate is less than 1.5 gallons because it can be turned off. Although Sales does not describe the exact cleaning rate, the claimed structures are the same and therefore would be expected to perform the same.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7, 9, 18, 24, 28, 31 and 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sales in view of Applicant's specification.

Sales discloses the apparatus in the above 102(b) rejection. Sales does not specifically disclose the carbonated cleaning solution. Applicant states in the specification (pg. 9, ll. 10-13) that the acid/base carbonated cleaning solution is a known and patented solution. At the time of the invention, it would have been obvious to one of ordinary skill in the art to modify Sales by using the cleaning solution discussed in Applicant's specification as it is a previously known and suitable cleaning solution when cleaning textiles.
